STORIES

Lavoriamo da oltre quarant'anni nel settore rubinetteria con professionalità ed esperienza nel costante impegno di produrre rubinetti di alta qualità, dal design moderno e dal sicuro riconoscimento come prodotti made in Italy. Situata a Gozzano, località alle porte del Cusio, la ditta Vicario Armando s.r.l., opera da anni nella produzione di rubinetteria per cucina e bagno con una gamma articolata di prodotti che va dai moderni miscelatori monocomando dal design giovane e funzionale alle più classiche linee old fashion dal gusto retrò. La grande esperienza maturata in oltre quarant'anni di lavoro, le avanzate tecnologie produttive e i due moderni stabilimenti che occupano una superficie di 10.000 metri quadrati, ci hanno permesso di ottenere un costante e crescente successo su tutti i mercati nazionali ed esteri. Tutto questo a riconoscimento di un prodotto di sicura qualità, progettato e prodotto interamente in Italia da personale qualificato. Tutta la nostra produzione è realizzata in ottemperanza delle più severe norme di controllo vigenti nei più importanti paesi Europei. Il nostro ciclo produttivo prevede severi controlli in ogni sua fase al fine di ottenere un prodotto sicuro in grado di miscelare acqua per anni senza problemi. Esperienza, serietà e professionalità sono le caratteristiche su cui basiamo il nostro lavoro, che in questi anni ci hanno permesso di crescere e ottenere grandi successi di vendita: ecco perchè da anni diciamo che i nostri prodotti sono...

 **ARMANDO
VICARIO**

...di casa nelle case del mondo.

We have been working since more than forty years in the taps and fitting field, using professionalism, experience and constant engagement to produce high quality taps, from a modern design and reliable identification mark of made in Italy. Situated in Gozzano, a small town just outside of the Cusio area, the company Vicario Armando s.r.l. has been working since years in the production of kitchen and bathroom taps with an articulated product range, starting from modern single lever mixers in a young and functional design to the most classic old fashion line. The big experience completed in more than forty working years, the advanced production technologies and two modern plants, which take up a surface area of 10.000 square meters, allowed us to obtain a constant and growing success on all the national and international markets, thus recognizing the reliable quality product, completely planned and produced in Italy by skilled staff. All our production has been realized in compliance with the most severe legal control rules in the most important European countries. Our production cycle provides serious controls during each phase, in order to obtain a safe product able to mix water for years without any problems. Experience, seriousness and professionalism are the basic characteristics of our job, which during these years allowed us to grow and to obtain great sales successes: that's the reason why we say that our products are since years...

...at home in the house all over the world.

Funzionalità a portata di mano

FUNCTIONALITY ON HAND

Vasto assortimento
Una gamma articolata per soddisfare ogni esigenza di stile e funzionalità.

Wide range. Complex range to meet any requirement in terms of style and functionality.

Altezza confortevole
Bocche di erogazione alte per facilitare il riempimento di recipienti di grandi dimensioni.

Comfortable height. High supply spouts to facilitate the filling of large containers.

Rotazione della canna
La canna ruota per facilitare l'erogazione dell'acqua in punti diversi del lavello.

Spout rotation. The spout turns to facilitate water supply in different points of the sink.

Sottofinestra
Pratica soluzione per i lavelli posizionati di fronte alle finestre, con un semplice movimento si abbassa la canna.

Below window. Easy solution for sinks in front of windows, with a simple motion the spout goes down.

Attacco per lavastoviglie
Una pratica manopola facilita la deviazione dell'acqua verso la lavastoviglie.

Dishwasher connection. Easy handle for water deviation towards the dishwasher.

Doccetta estraibile
Pratica doccetta estraibile che aumenta il raggio di azione e offre diversi tipi di getto.

Removable hand shower. Functional removable hand shower that increases the range of action and offers many kinds of jet.

Facile da pulire
La perfetta cromatura permettere la pulizia del corpo con un panno morbido.

Easy to clean. Perfect chrome-plating for cleaning the body with a soft cloth.

Bassa pressione
Vasta gamma di modelli disponibili per la bassa pressione.

Low pressure. Wide range of models available for low pressure.

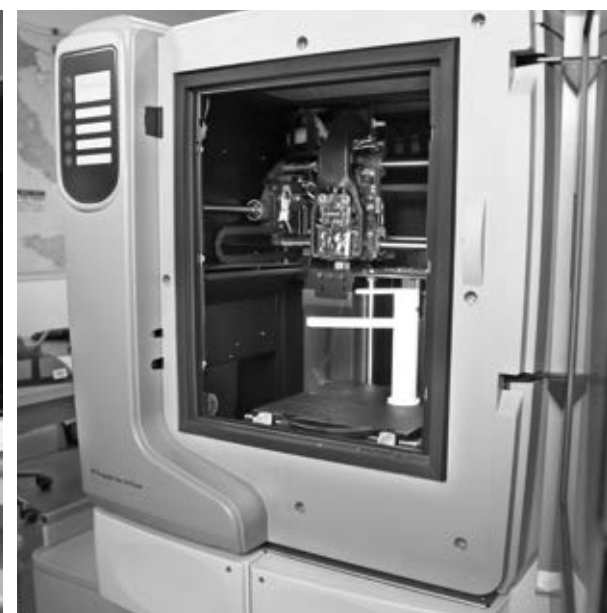

Led indicatore di temperatura
Una vasta gamma di modelli è disponibile con areatori a led che cambiano di colore con il passaggio dell'acqua.

Temperature indicator led. Wide range of models available with led aerators that change their colour as water goes through them.

Baby Chef 2

CHEF

L'evoluzione è una vera rivoluzione!

Deviatore manuale. Deviatore di flusso manuale che permette di far arrivare, con un semplice gesto, l'acqua alla canna o alla doccia.
Manual diverter. Flow diverter allows, with a simple gesture, the water arrival to the spout or to the shower.

PROFESSIONAL KI+CHEN +APS

Con la serie Chef, Armando Vicario rivoluziona totalmente con un nuovo concetto costruttivo il rubinetto professionale che, grazie all'altezza notevolmente ridotta ed alla esclusiva valvola miscelatrice, in grado di deviare automaticamente il flusso dell'acqua dalla bocca alla doccia, lo rende pratico, versatile e facilmente inseribile nei moderni piani cucina.

Serie Chef: when evolution is actual revolution!

With the Chef series, Armando Vicario totally revolutionizes with a new production concept the professional tap, which, thanks to the remarkably reduced height and to the exclusive mixer valve, able to deviate automatically the water flow from spout to shower, makes it functional, versatile and easy to insert in the modern kitchen countertops.

Con valvola automatica, meccanismo di deviazione del flusso d'acqua dalla canna alla doccetta da noi studiato e sviluppato in esclusiva.

With automatic valve, mechanism of water flow deviation from spout to hand-shower exclusively designed and developed.

Valvola automatica

La valvola automatica, meccanismo di deviazione del flusso d'acqua da noi studiato e sviluppato in esclusiva, rende pratico l'utilizzo perchè permette di deviare l'acqua dalla canna alla doccia agendo direttamente su di essa.

Automatic valve

The automatic valve, a water flow diverter mechanism exclusively designed and developed by us, is very functional because it diverts water from the spout to the shower operating directly on it.

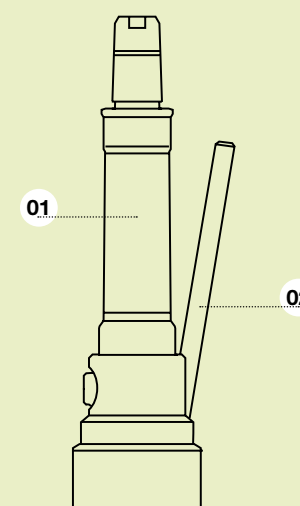

Altezza ridotta a soli 70 cm
Grazie all'altezza contenuta può essere inserito nelle normali cucine e non solo nelle soluzioni ad isola.

Height reduced to only 70 cm
Thanks to the reduced height it can be inserted in the ordinary kitchens and not only in island block solutions.

Non va ancorato al muro
Può essere installato senza rompere piastrelle o parti della cucina.

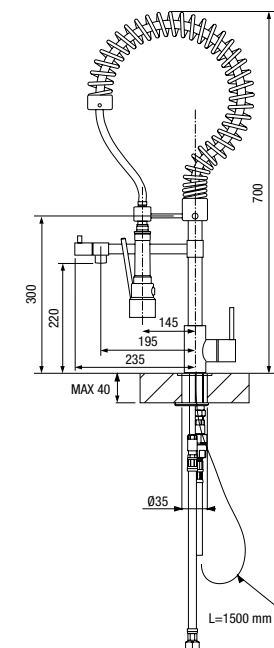

It should not be anchored to the wall
It can be installed without breaking tiles or parts of the kitchen.

01. Impugnatura in tecnopolimero per non scottarsi le mani.
Handle in techno-polymer to avoid hand burning.
02. Leva lunga che permette un'apertura progressiva dell'acqua e il perfetto controllo del flusso.
Long lever that allows a progressive water opening and the perfect flow control.

BE PURE

Un'anima sola, una doppia personalità, davvero positiva.

 **ARMANDO
VICARIO**

Be Pure

BePure®
QUALITY DRINKING WATER

1. Acqua per uso domestico.
Water for home use

2. Acqua pura.
Pure water

Con un semplice gesto puoi erogare dal rubinetto della tua cucina tutta l'acqua pura che vuoi. Due pratiche leve rendono l'accesso semplice e pratico. Con la leva di destra (foto 1) Mix 3AP BePure® ti permette di utilizzare l'acqua calda e fredda, destinata ai normali usi domestici, con la leva di sinistra (foto 2) è possibile avere acqua fresca e pura da bere.

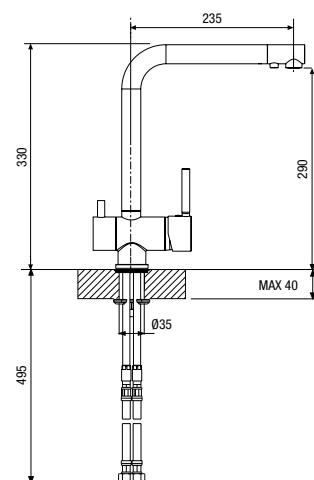

With a simple gesture you can have all the pure water that you want coming from your faucet. Two functional levers make access simple and easy. With the right lever (picture 1) Mix 3AP BePure® allows you to use cold and hot water, for ordinary home uses; with the left lever (picture 2) you can have fresh, pure to drink, water.

Un unico miscelatore significa: praticità di utilizzo, risparmio e minori costi gestionali. Di facile montaggio, Mix 3AP BePure® si presenta come un normale miscelatore, la differenza però è sostanziale: il doppio percorso di erogazione rende Mix 3AP BePure® il rubinetto adatto a chi nella propria cucina ha deciso di avere acqua pura e fresca senza lunghe code al supermercato per procurarsi l'acqua in bottiglia, pesante da trasportare, costosa, di difficile stoccaggio e con un impatto negativo per lo smaltimento di milioni di bottiglie di plastica.

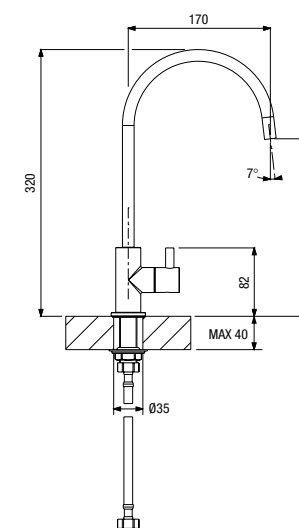

One single mixer means: user friendliness, saving, and lower operating costs. Easy to assemble, Mix 3AP BePure® is an ordinary mixer, but with a crucial difference: the double supply mechanism makes Mix 3AP BePure® the perfect faucet for clients who want in their kitchen pure and fresh water without long queues at the supermarket to get bottled water, heavy to transport, expensive, difficult to stock and with a negative impact for the disposal of millions of plastic bottles.
